Joshua Sabol

An entrepreneur at heart, my current passion is solving the set of problems around in-store shopping (checkout, wait times, discovery, etc.). Constantly balancing between high level strategies and low level implementations, I love building products that solve real problems with high-energy teams.

Experience

Founder & CEO @ Spreely Inc. **Sept. 2017 - July 2018**

Spreely is a mobile app that lets grocery shoppers scan items while they shop, and checkout from their phone. It's truly the most convenient way to shop in stores.

- Launched iOS app into first store achieving 150% goal for downloads
- Operated 2-week sales sprint resulting in 350 customer touches
- Built and shipped responsive & mobile-friendly website
- Conducted 70+ interviews with retail executives to perfect value propositions
- Created the initial wireframes yielding 4 grocery store pre-sales

Product Operations @ Cisco Systems **Aug. 2015 - Sept. 2017**

Cisco is a Fortune 100 networking company. Responsible for the delivery schedule, supply chain, cost, and quality for both new and existing product lines (Nexus 3000 Data Center Switches).

- Launched 3 data center products with +$100M forecasted annual revenue
- Leveraged benchmark data to successfully influence design decisions
- Led engineering qualification of 23 products to mitigate component quality failures
- Produced business specs, flow diagrams, and Tableau dashboards to increase new process adoption
